MAYA TESTBRIDGE

Senior Data Analyst | Power BI, SQL and Python

Sydney, NSW | maya.testbridge@example.test | +61 400 000 024 | linkedin.com/in/maya-testbridge-example

PROFILE

Data analyst with 8 years of experience turning messy operational data into dashboards that managers use every week. Strong in SQL, Power BI and Python. Works with finance, retail and health teams to define the numbers and keep them rig
Seeking a Data Analyst role where I can keep working with clear questions, clean data and honest charts.
Comfortable with stakeholders, requirements workshops and teaching colleagues how to read a report.

EXPERIENCE

Senior Data Analyst, Quokka Insights Pty Ltd Mar 2021 – Present

- Own the revenue and churn dashboards in Power BI for 6 business units, used by 200 managers each week.
- Rebuilt the monthly forecast in Python and SQL; the error fell from 14% to 6%.
- Ran requirements workshops with finance and operations and documented the definitions of 40 measures.

Data Analyst, Banksia Retail Group Jun 2018 – Feb 2021

- Built 25 Tableau and Excel reports for store managers and cut the weekly reporting time from 2 days to 3 hours.
- Wrote SQL to reconcile sales and stock between 3 systems and fixed the root causes of mismatches.

Business Analyst Intern, Wattle Health Demo Jan 2018 – May 2018

- Mapped the intake process of 3 clinics and wrote 20 user stories with acceptance criteria.
